# Round Rotherham 2021 Changes and Alternatives

Stage 2: There is significant development alongside the RRR route between B18 and B23, but the route is only modified between B22 and B23

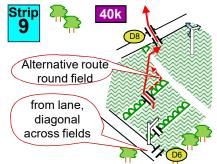

### Stage 2

Left turn 20 m earlier than previously, to Fisherman's path that leads to brick path

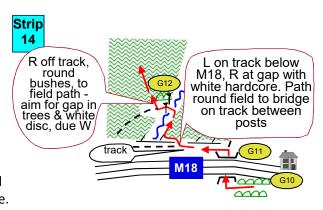

### Stage 4

Optional diversion round potato field: may be faster round field edge rather the over furrows.

# Stage 7

Old stile at RRR and Heron Way markers goes straight into sunflowers (unless harvested). Keep on track for 20 m to hardcore field access, follow round field and along stream to bridge.

# Stage 8

(a) After interminable climb from Hooton Roberts and left turn on track to gate, you should drop down to old checkpoint. If cows block your route, go round by going down track to road.
(b) There is a new bridge over the railway, steps or ramp each side
